Protection & Security:

Our largest King Tut Block for Entry Control Points features a large volume design for greater water weight. Ideal for high threat and security applications. This King Tut Block's large size makes it ideal for Entry Control Points, controlling access to buildings, and controlling crowds. It is lighter and easier to deploy than concrete road King Tut Blocks, and requires only two people to set up. The heavy-duty unit is fabricated to ballistics testing requirements and for multiple deployments and maximum abuse. Tested by H.P. White Labs. (Results can be found on the web.)

Features:

- Ideal for Entry Control Points.
- Accommodates lights.
- Reflective panels may be installed.
- Can be positioned individually or used in conjunction with U-connector placed under barricades to form a tamper-proof wall.

Specifications:

- System creates an interconnected wall with no intermittent gaps.
- Patented U-connector allows barricades to be physically bolted together to form a tamper-proof, inseparable wall.
- Discourages vehicular attacks.
- Cable capability can reduce lateral deflection and vehicle penetration.
- Where barricades are spaced, cables may be strung between barricades and stationary objects to form a continuous line of protection.

COLORS:

Orange, white, desert tan, olive drab and other custom colors.

COMPOSITION:

High impact UV resistant, high density polyethylene

SIZE:

Height: 31" / 78.7 cm
Length: 120" / 304.8 cm
Width: 24" / 60.9 cm
Wall: .25" / 6.35 mm

WEIGHT:

Empty: 135 lbs. / 61.2 kg
Full: 2800 lbs. / 1270 kg

HEAVY DUTY

Empty: 175 lbs. / 79.4 kg
Full: 2840 lbs. / 1288.2 kg
